OverviewConsumption and accessBiomassElectricityOilRenewable energySee alsoExternal links Three primary energy sources make up the energy mix in Guinea: fossil biomass, oil and hydropower. Biomass (firewood and charcoal) makes the largest contribution in primary energy consumption. It is locally produced, while Guinea imports all the petroleum products it needs. The potential for hydroelectric power generation is high, but largely untapped. Electricity is not available to a high percentage of Guineans, especially in rural areas, and service is intermittent, even in the capita...

AGENDA 2063. AGENDA 2063 is Africa's blueprint and master plan for transforming Africa into the global powerhouse of the future. It is the continent's strategic framework that aims to deliver on its goal for inclusive and sustainable development and is a concrete manifestation of the pan-African drive for unity, self-determination, freedom, progress and collective prosperity pursued ...

Supported by the African Energy Chamber (EnergyChamber ), the Year of Investment 2020 is an initiative of the Ministry of Mines and Hydrocarbons (MMH) to pursue Equatorial Guinea's agenda of energy cooperation and investment, and see the signing of several landmark energy deals for Equatorial Guinea in 2020.
