Albania has a Mediterranean subtropical climate. On the coastal part of the country, the climate is very typical for the most of the Mediterranean countries: a long hot and dry summer and a mild, fairly humid winter. The climate of the inland mountain regions, on the other hand, is close to Continental, especially in the north.

It is the national museum of Albania and is located on the premises of the Church of the Virgin Mary's Dream in the fortress town of Berat. The museum consists of an ancient church with a well-preserved, striking ancient iconostasis, an altarpiece, and several rooms on two floors with a large number of 16th-19th century icons that managed to be magically preserved during the ...

Albania currently receives approximately 99 percent of its electricity from hydroelectric power stations. But with regular droughts and ramshackle energy infrastructure dating back to its communist era, Albanian ...

For many travellers, Albania equals a beach vacation, and they thrive on the energy of the crowds and the heat of summer. But, if you want to avoid the multitudes and the sweltering temperatures of Albania's "high season" from late June through August (up to 41C, at times!), try a beach trip in Albania's "shoulder season."

Albania currently receives approximately 99 percent of its electricity from hydroelectric power stations. But with regular droughts and ramshackle energy infrastructure dating back to its communist era, Albanian has struggled to keep pace with the country's break-neck development fueled by the millions of tourists it welcomes annually.

In Albania, a small country of the Balkan peninsula overlooking the Adriatic Sea, the climate is Mediterranean on the coast (with mild, rainy winters and hot, sunny summers), while it's slightly more continental in the interior, though it's really cold only in mountainous areas. Rainfall is quite abundant on the coast, where it amounts to about 1,000 millimeters (40 inches) per year, and ...

The PLENTICORE BI battery inverter is available in the 5.5 and 10 kW power classes, with an input current of 26 amps. This makes the KOSTAL battery inverter a perfect candidate for expanding an existing PV system by adding the Wintersun battery storage unit. "The features of the KOSTAL inverters are impressive," says Andreas Schmalenberg.

While it's true that Albania is most known for its pristine beaches, rest assured that the country doesn't disappoint in the winter, either. The Albanian Alps are often compared to the Swiss Alps, for example, and there's a reason why; they have high peaks, they're magnificent, fascinating, but also provide opportunities for many winter ...
