"AlumaPower has a novel multi patentable approach that turns Aluminum into a highly efficient carbon neutral "fuel". The AlumaPower Battery uses replaceable Anodes of Aluminum and a propriety cathode that can adjust its distance to the Anode.

Exciting developments are underway at AlumaPower Corporation as they take a giant leap towards a greener and more sustainable future. Their breakthrough clean energy innovation -- called the "Galvanic Generator" -- promises to revolutionize the portable power landscape by tapping into the high energy content of recycled aluminum.
