

Andorra enercon europe

What applications does Enercon technologies support?

Enercon Technologies Ltd has extensive experience supporting a wide variety of military applications, including avionics, UAV's, aircraft, C4ISR, electronic warfare, ground vehicles, radar arrays, missiles and anti-missile defense, surface ships, submarines and more. Examples of applications Enercon Technologies' has supported include:

Where is Enercon based?

ENERCON began its activities in the Western Europe region in 1992 and has seen continuous growth since then. The region consists of six countries - United Kingdom, Ireland, France, Belgium, the Netherlands and Luxembourg. The team is made up of dynamic professionals from various backgrounds, committed to working together on the energy transition.

Who is Enercon Western Europe?

ENERCON Western Europe | 23,142 followers on LinkedIn. Energy for the World | As a pioneer of wind energy technology and a partner of the energy transition, ENERCON specialises in the turbine and technology development, production, sales and servicing of onshore wind energy converters.

What is Enercon & how does it work?

Pursuing its mission of 'Energy for the world', ENERCON has driven sustainable energy generation from onshore wind since 1984. ENERCON began its activities in the Western Europe region in 1992 and has seen continuous growth since then. The region consists of six countries - United Kingdom, Ireland, France, Belgium, the Netherlands and Luxembourg.

How many countries are in Enercon Western Europe?

The region consists of six countries- United Kingdom, Ireland, France, Belgium, the Netherlands and Luxembourg. The team is made up of dynamic professionals from various backgrounds, committed to working together on the energy transition. If you are interested in joining the dedicated ENERCON Western Europe team, get in touch today!

What makes Enercon a good company?

ENERCON is a pioneer of wind energy technology, a company that treats its business partners as equals and an attractive employer in a future-oriented sector all rolled into one.

This can frequently be accomplished without NRE. Use the contact form to submit a request, or contact us to discuss your requirements. For our US team call (603) 267-8865, for our European team call: +41-41-740-4554. Configurations created for specific requirements will be assigned a new variant part number. [Learn More](#)

Ultra-compact military board-level Ethernet switching solutions offers up to 10Gbe transmission speeds, coated with board-to-board connectors. Managed switches provide the latest networking protocols for redundancy, security, multicast, and management including static routing, virtual LANS (VLANS), traffic prioritization/QoS, IPv4/IPv6 support, and bandwidth aggregation. they ...

Enercon Technologies Europe AG Military-Grade power and networking solutions ITAR & CE. We offer Mil-Grade AC DC, DC DC power supplies, VPX Vita 62, UPS, rugged switches, routers, USB HUBS, media converters and custom solutions for military applications. Our power and communication solutions designed for harsh environments and meet military standards such ...

M9547 series is a 16-channel power distribution unit, designed for airborne and ground applications. It distributes 28VDC through overload and short-circuit protected switches. The M9547 series supports Ethernet communication to control, configure and ...

The MILTECH 9022 is a rugged, MIL-STD 1U rack-mountable Layer 2 Ethernet switch with dynamic routing supporting 12 X 10/100/1000Mbps ports and 4 X 1G/10G fiber ports. Designed for MIL-STD-810F, MIL-STD-461E, MIL-STD ...

The MILTECH 1000 is a series of MIL-STD media converters that connect 10/100/100 copper to fiber. Orderable options include the use of the 100 as a powered device (PD) or power source equipment (PSE), and the number and ...

Enercon Industries Corporation announces the retirement of Richard Bull, Managing Director and Co-Founder of Enercon Industries Ltd. Richard will officially step down on Thursday, 31st October 2024, after almost four decades of dedicated service to the induction cap sealing specialists.. Richard co-founded Enercon Industries Ltd, the UK and European arm of ...

Enercon Technologies Europe AG Military-Grade power and networking solutions ITAR & CE. We offer Mil-Grade AC DC, DC DC power supplies, VPX Vita 62, UPS, rugged switches, routers, USB HUBS, media converters and custom ...

Enercon's MILTECH 410 is a prime example of this technology. It offers a compact, rugged solution (115mm x 91mm) that consolidates communication and power into a single system, easily integrated into a smart combat vest. Enercon's adaptable, lightweight systems are designed for frontline forces operating in the most demanding battlefield ...

The M3169 is a military AC to DC power supply. This rugged converter accepts an AC input range from 85 to 265VAC, 50/60/400Hz. It provides a single DC output from 3.3V to 300V, up to 1000W with custom outputs available. The M3169 is based on the popular M169 AC to DC Power Supply for airborne, UAVs and ground mobile applications. Designed as an IP67 unit (to withstand ...

Our small, rugged USB 2/3 hubs and storage devices enable connectivity and communication between multiple USB devices in weight and space-constrained environments. Every product is designed to withstand the environmental ...

The MILTECH 910-PoE is a rugged Power over Ethernet (PoE) switch that supports 60W of PoE on all 8 Gigabit Ethernet 10/100/1000 ports. It supports both 802.3af and 802.3at standard devices for PoE-enabled cameras, Wi-Fi access ...

The M167 AC to DC power supply is a Three Phase Input, Single Output, high efficiency, high density, military grade ruggedized AC to DC converter capable of up to 1600W output power. Features include; high efficiency, low noise, ...

Our small, rugged USB 2/3 hubs and storage devices enable connectivity and communication between multiple USB devices in weight and space-constrained environments. Every product is designed to withstand the environmental requirements of battlefield deployments, meeting military standards such as: MIL-STD-461, MIL-STD-810, IP67/68.

The MILTECH 9012 is a member of the MILTECH 9012 family that offers flexible alternatives for LAN, LAN/WAN, and customizable networking. All family members are MIL-STD, fully managed, and military grade, with 12 triple-speed (10/100/1000Mbps) ports. The MILTECH 9012 is a unique combination of both a Layer 2 Ethernet switch and a Layer 3 Ethernet router.

The M167 AC to DC power supply is a Three Phase Input, Single Output, high efficiency, high density, military grade ruggedized AC to DC converter capable of up to 1600W output power. Features include; high efficiency, low noise, internal EMI filters and can support parallel operation for higher power applications. The 115AC input range is 103 - 127VAC Line to Neutral, 400Hz.

The M7525 DC/DC power supply is a Single Output, high density, highly efficient military grade rugged DC to DC converter capable of delivering up to 800W output power. Features include; High efficiency, low noise, internal EMI filters and can support parallel operation for higher power applications. The DC input range is 18V - 48VDC.

The MILTECH 320G3UVPX is a 3U VPX Ethernet Switch with fully implemented IPMI management complies with the new VITA 46.11 Tier II. This VPX networking module Ports Slot Profiles per SOSA: 1) SLT3SWH2F24U14.4.3 24 x 10GKR + 2 x 40GKR 2) SLT3SWH6F1U7U14.4.14 SLT3SWH6F7U13.4.15 6 x 40GKR + 7/8 x 10GKR Supporting ...

For more than 40 years Enercon Technologies Europe AG has been a leader in the manufacture of high quality, rugged power supplies, design to MIL-Standards. Their strength lies in their ...

The M9538 is a 100A eight channel power distribution unit, PDU. Each channel of the PDU contains a solid state circuit breaker that is fully programmable for trip current limits, on/off control, channel sequencing, BIT, voltage and current telemetry. The M9538 input range is nominally 28V but can support between 6 to 33V and is designed to meet MIL-STD-1275, MIL-STD-461 and ...

M4054 is a military grade 3U VPX, 28V DC-DC, SOSA(TM)-aligned PSU card that provides 12V and 3.3VAUX per VITA 62 that is rated at 768W output power. Features include: conduction cooling, "pitch, current-sharing, fast initialization, reverse battery protection, internal EMI filters, VITA 46.11 system management. DC input range is 18-50V per MIL-STD-704 and DO-160, but ...
