

Astronergy solar panels review South Korea

Are Astronergy solar panels a good choice?

Astronergy Solar Panels were listed as a top performer for in 6 out of 7 test categories (thermal cycling, damp heat, mechanical stress sequence, hail stress sequence, LID+LETID and PAN performance) in the latest 2024 report. Why is office location in Australia important?

Who makes Astronergy solar panels?

Founded in 2006, CHINT Solar has grown into a significant player in solar panel production. It has seven manufacturing facilities across China and another in Thailand, and has 13,000+ employees. The firm had shipped more than 100GW of Astronergy module capacity as at May 2024. The Astronergy brand entered the Australian market around 2012.

Which Astronergy modules are the best?

LONGi are second on this list, for what it's worth. Astronergy gets top spot in PV Evolution Labs '2020 PV Module Reliability Scorecard'. The winning modules this time are the AstroSemi series and AstroTwins series modules that we are currently working on.

Are Astronergy solar panels a good choice in Australia?

Astronergy solar panels have been available for home installations in Australia for a few years now and are priced firmly at the budget end of the market. While they've done well consistently in some third-party testing overseas, I'm struggling to get enthusiasm from installers I trust about their performance or Australian support.

Who is Astronergy solar?

The solar panel manufacturing business, Astronergy Solar, was founded in 2006 and is based in Hangzhou. Astronergy also has an EPC capability domestically in the Chinese solar market. The business currently claims to have revenues of AUD\$2.9B and a manufacturing capacity of 12GW spread across China, Thailand and Vietnam.

What efficiencies does Astronergy offer?

Currently, Astronergy offers five main series panels of ASTRO 5, ASTRO 5s, ASTRO N5, and ASTRO N5s. At the time of updating this page (Dec 2022), they can produce panels with efficiencies of up to 22.3% (Astro N5 575W).
