

Enerox GmbH, under the trademark CellCube, is a pioneer in vanadium redox flow battery technology that began developing in the early 2000s. CellCube then began to transform as one of the top 10 battery manufacturers in Austria. It ...

This year's IFBF showcased the growing traction of flow batteries, with sessions highlighting technical progress, diverse business cases, regulatory gaps, success stories from around the ...

The International Flow Battery Forum (IFBF) concluded its 15th edition in Vienna, Austria, bringing together 350 delegates interested in energy storage from all over the world. The event marked ...

Funding: £2.1M enee.io designs and develops battery monitoring systems that makes both users and suppliers of renewable power systems more profitable. Using the latest IoT technology and data analytics we improve ...

July 27, 2025 Doctoral Scholarship in Redox Flow Batteries: The University of Antwerp is offering a Doctoral Scholarship for a full-time position in the field of redox flow batteries. This ...

Redox flow batteries (RFBs) are promising solutions for large-scale stationary energy storage due to their scalability and long cycle life. The efficient operation of RFBs requires a thorough ...

The all-iron flow battery market is poised for significant growth, driven by increasing demand for sustainable and long-duration energy storage solutions. While precise market size figures for ...

For the first time, an analysis shows how much storage capacity Austria needs on its path to 100% renewable electricity by 2030 and climate neutrality by 2040. Battery storage systems ...

Katy, TX, July 09, 2025 -- TerraFlow Energy Operating LLC (TerraFlow Energy), a leader in long-duration energy storage, has signed a strategic supply agreement with Storion Energy LLC ...

TerraFlow Energy and Storion Energy struck a strategic agreement to advance vanadium flow batteries by combining Storion's electrolyte and stack expertise with TerraFlow's skid-based ...

University Assistant with Doctorate: The Institute of Molecular Biosciences at the University of Graz is seeking a dedicated and research-oriented individual for a postdoctoral position in ...

The battery industry moves at a fast pace: The articles Battery Technology publishes represent only a fraction of what's happening in this quickly evolving industry. That's the idea behind this curated and regularly

Austria flow battery technology

updated ...

Michael Aziz is a professor of materials and energy technologies with Harvard University, and fifteen years ago, he pioneered the idea of stocking flow batteries not with vanadium, but with ...

Allegro Energy is set to debut its microemulsion flow battery technology at Origin's Eraring Power Station in New South Wales, Australia. Image: Allegro Energy. Allegro Energy, an Australian ...

Our research work focuses on lithium-based battery technologies - established or next-generation - such as lithium-ion, lithium-sulfur and solid-state batteries. In addition, sodium-based batteries such as sodium-ion and sodium ...
