

Slovenia's largest solar power plant, covering approximately seven hectares, officially began commercial operations at the start of July. Located in the settlement of Krvavi Potok in the ...

As the renewable energy transition progresses, new technology is quickly enabling an additional demographic of energy consumers to take part in the decarbonisation of electricity production, ...

Trina Solar has agreed to supply more than 700 MW of high-efficiency PV modules for projects in Spain and Italy under a five-year deal with Verbund Green Power, while EVE Energy says it ...

German photovoltaics (PV) contractor IBC SOLAR has expanded its international footprint with the creation of new subsidiaries in France and Austria, and through the acquisition of a ...

In 2024, total turnover of the solar thermal energy sector amounted to EUR 95 million. In 2024, 1,451 wind turbines were in operation in Austria. The percentage of hydro power in renewable energies was 30.4% in 2023. Source: ...

Solar takes top spot in the EU for the first month ever In June 2025, solar was the largest source of EU electricity for the first time, with multiple countries producing record amounts of solar power. Wind power in the EU started the summer ...

Alongside hydropower, Austria has also invested in other renewable energy sources such as wind, solar, and biomass. These sources are increasingly contributing to the energy mix, reflecting Austria's commitment to reducing ...

The utility-scale solar market remains relatively resilient, driven by auctions across Europe that incentivise flexible solar projects that are combined with storage or wind. BRUSSELS, Belgium ...

In Austria, solar facades are certainly the future of renewable energy production. These innovative PV designs have benefits that are beyond comprehension, from maximised quality to adding ...

This expansion is driven by the government's push to scale up renewable energy, particularly solar power. PV Austria president Herbert Paierl has noted that Austria aims to reach 21GW of solar capacity by 2030, but this will require ...

Solar Heat Europe, ein europäischer Zusammenschluss von Solarthermie-Stakeholdern, hat einen neuen Vorstand gewählt. Einer der zwei Repräsentanten für nationale Verbände ist ...

Austria solar power

For the first time, an analysis shows how much storage capacity Austria needs on its path to 100% renewable electricity by 2030 and climate neutrality by 2040. Battery storage systems ...
