Is Azerbaijan a green energy exporter?

SGC became fully operational in January 2021, supplying 6 billion cubic meters of gas per year (bcma) to Türkiye, 8 bcma to Italy, and 1 bcma each to Greece and Bulgaria. Azerbaijan is currently pursuing wind and solar projects with the goal of becoming an exporter of green energy to European markets.

Will Azerbaijan make big strides in the energy industry?

Azerbaijan is all set to make bigger strides in the energy industry as BP announced earlier this month that it has started production at a new \$6-billion facility in its giant Azeri-Chirag-Gunashli oil field. The latest upgrade could boost the field's output by up to 25 per cent.

Does Azerbaijan have an independent energy regulator?

Azerbaijan does not have an independent energy regulator. In 2017, the President of Azerbaijan signed a decree to establish an Energy Regulatory Agency under the Ministry of Energy. The Ministry of Economy regulates licensing procedures, while tariffs are set by the Tariff (Price) Council, chaired by the Minister of Economy.

Is Azerbaijan a 'green economy'?

Despite its abundant oil and gas reserves, Azerbaijan is committed to a sustainable energy future and a 'green economy'. The country has long initiated the transition to renewable energy sources. Following the signing of the Paris Agreement, Azerbaijan aims to reduce greenhouse gas emissions by 35% by 2030 and 40% by 2050.

Does Azerbaijan have a Green Energy Corridor?

Additionally, Azerbaijan is actively involved in the 'Caspian-Black Sea-Europe Green Energy Corridor' project, known as the 'Black Sea Cable', facilitating the transmission of green energy from Azerbaijan's wind farms to Romania and beyond.

What are the major energy projects in Azerbaijan?

Significant projects in the nation include several developments in energy infrastructure particularly expansions in Natural Gas. Currently, Azerbaijan's Shah Deniz gas field is the world's largest gas condensate field, with proven reserves estimated at 1.2 trillion cubic meters of gas and 240 million tonnes of condensate.

Saudi energy group ACWA leads the Area 1 / Khizi 3 wind farm (240 MW), with an additional 200 MW wind project in discussion, while three additional solar projects account for a further 440 MW. However, GEM data show no further renewable projects in development in Azerbaijan, calling into question the certainty of capacity increase beyond the 2 ...

The development of renewable energy, therefore, forms a crucial pillar of Azerbaijan's clean energy strategy.
