Grand Bahama Power Company has announced its latest Power Purchase Agreement (PPA) with the Independent Power Producer (IPP) Bahamas Solar and Renewables. The agreement will see one of the largest renewable energy plants built on the island. The new solar plant will provide an approximate capacity of five megawatts of clean renewable energy. ...

The Bahamas Solar Revolution? Solar energy installations in the Bahamas probably won't benefit from the same level of government investment, but that may not be a major problem. This is because, done correctly, solar energy installations in the Bahamas already bring PV electricity prices close to grid parity - sometimes much lower.

The sun is a renewable, reliable, non-polluting and reliable source of power for your home here in the Bahamas and Island Solar is well equipped to install your quality system for the long run! Paradise Island- 48 310 watt modules with SolarEdge inverter and optimizers
