

Key Takeaways: Baku Steel Company doubled Azerboru plant's capacity to 60,000 metric tons after modernization. New product lines, including P110 class pipes, expand access to oil & gas ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Ukraine has expressed strong interest in expanding cooperation with Azerbaijan in the fields of natural gas production, storage, and transportation, according to a statement from the Ministry ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (the OBBB), which significantly rolls back many of the core tax incentives that clean energy projects have relied ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Energy storage and all other types of power projects (i.e., other than solar and wind) have until the end of 2033 to start construction to qualify for technology-neutral tax credits at the full rate. ...

Energy Storage Solutions for Manufacturing Facilities In the industrial landscape, the quest for operational efficiency has become more essential than ever. Operations Directors in industrial ...

Explore how ACE Battery leads in sustainable energy storage with green manufacturing, global certifications, and customized ESS built for long-term impact. As the global demand for clean ...

Ukraine has offered Azerbaijan access to its underground gas storage facilities as part of efforts to deepen bilateral energy cooperation, Ukrainian Energy Minister German Galushchenko said ...

Speaking to reporters, Husyev highlighted the natural alignment between Azerbaijan's expanding role as a key energy supplier to Europe and Ukraine's efforts to diversify its energy sources in ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

This advancement aligns with China's rapidly expanding directed-energy weapons program, which has gained urgency amid growing concerns over Starlink's role in Ukraine and broader competition in space. China has
