In April 2025, the Government of Rwanda began a partnership with Chery International, a well-known manufacturer of electric vehicles. This collaboration also includes other sectors such as ...

The global electric vehicle (EV) market is witnessing a significant resurgence, with sales in the first half of the year exceeding 5.9 million battery electric vehicles (BEVs), according to a ...

These components are specifically designed for automotive batteries used in battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs), with the expansion finalized as of June ...

This lineup will include six battery electric vehicles (BEVs), two plug-in hybrid electric vehicles (PHEVs), two range-extended electric vehicles (REEVs), and one internal combustion engine ...

Battery Electric Vehicles (BEVs) now dominate powertrain installations, making up nearly 71% of the total demand across major regions. Battery packs account for about 38% of the market ...

"The good news is a hydrogen vehicle is an electric vehicle," says Guldner. "It's just a different way of storing the energy versus a battery, which also means that we can reuse a lot of the ...

BMW Group has announced its commitment to hydrogen fuel cell technology, planning to launch its first hydrogen-powered vehicle into series production by 2028. This move positions the ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

Okay, now what about electric and plug-in hybrids? The company plans to offer 15 battery electric vehicle (BEV) models by 2027, compared to the five it currently offers. Two of these new BEVs ...

Rwanda is pushing forward with its goal of reducing greenhouse gas emissions by revising tax incentives for electric and hybrid vehicles. Effective July 1, 2025, fully electric vehicles (EVs) ...

In 2024, battery-electric vehicles under three years old averaged 10,054 miles per year, whereas vehicles with internal combustion engines (or petrol, as it's known in British English) averaged 7,585 miles. This represents a 32.6% increase in ...

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

The commission said it &quot;has provisionally concluded that the BEVs (battery electric vehicles) value chain in China benefits from unfair subsidization, which is causing a threat of economic injury to EU BEV producers&quot;.

Guidance for car manufacturers on how to apply for their vehicles to be eligible for the Electric Car Grant. The guidance explains: how the scheme works vehicle eligibility the application process ...

Research conducted from late 2023 to May 2025 included various stakeholders, revealing insights on travel habits, transport challenges, and the demand for electric mobility in Kigali. Surveys ...

Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs) share some components, but not all: Auxiliary battery: Both BEVs and HEVs use an auxiliary 12V battery for low-voltage systems (lights, infotainment, etc.).

In some cases--like with regenerative electric locomotives such as the Fortescue Infinity Train--machines can even recharge themselves, eliminating fuel costs entirely. When ...

Hydrogen fuel cell cars (FCEVs) have been on the market for a similar duration to the current wave of battery EVs (BEVs). But they have sold a tiny fraction in comparison. In 2024, 12,866 ...

The UK government has reconfirmed its plans for a ban on pure petrol and diesel vehicle sales by 2030, with hybrid vehicles following in 2035 for cars, leaving only zero emissions vehicles, of ...

This report is a life-cycle assessment (LCA) of the global warming potential of passenger cars sold in the European Union (EU). It compares sales-weighted average medium segment gasoline, diesel, and natural gas internal ...

SPIRO, Africa's leading electric mobility company, is transforming urban transport by expanding its operations in Rwanda and beyond. With a mission rooted in sustainability, innovation, and economic empowerment, SPIRO currently ...

The new incentives are meant to catalyze the adoption of electric vehicles. He also mentioned that Rwanda updated Nationally Determined Contribution (NDC) which outlines the importance of electric vehicles and the ...

Imports of battery electric vehicles (BEVS) fell by more than 50 per cent in value during the 12 months to June 2025, when compared with the year prior, according to Stats NZ. The total value of passenger motor vehicle imports for the past ...
