

The European Commission announced on Wednesday that Chinese-made battery electric vehicles, or BEVs, will soon be subjected to punitive countervailing tariffs, after the conclusion of the bloc's anti-subsidy ...

The project consortium, coordinated by an Austrian Research Institute, is looking for a company (SME or bigger) acting as Original Equipment Manufacturer, who can cover all vehicle-related ...

Registrations of vehicles with plugs rose strongly as battery electric vehicles (BEVs) jumped 39.1% to 47,354 units, equivalent to a quarter (24.8%) of the market, and plug-in hybrid electric vehicles (PHEVs) grew 28.8% to 21,382 ...

As Europe's electricity mix is getting cleaner, battery-electric vehicles (BEVs) are also offering a larger climate advantage than previously expected, according to the results of a new study ...

The shift toward electric vehicles (EVs) in Uganda is gathering unprecedented momentum, with industry experts forecasting faster-than-expected adoption driven by declining scepticism, ...

"The good news is a hydrogen vehicle is an electric vehicle," says Guldner. "It's just a different way of storing the energy versus a battery, which also means that we can reuse a lot of the ...

New Energy Vehicle is a Chinese term for EVs, which includes battery electric vehicles (BEVs) and plug-in electric vehicles (PHEVs). To be completely precise, it also includes hydrogen vehicles (FCEV), but their sales are nearly non ...

In some cases--like with regenerative electric locomotives such as the Fortescue Infinity Train--machines can even recharge themselves, eliminating fuel costs entirely. When ...

Okay, now what about electric and plug-in hybrids? The company plans to offer 15 battery electric vehicle (BEV) models by 2027, compared to the five it currently offers. Two of these new BEVs ...

BMW Group has announced its commitment to hydrogen fuel cell technology, planning to launch its first hydrogen-powered vehicle into series production by 2028. This move positions the ...

A new report by the International Council on Clean Transportation (ICCT) finds that battery electric vehicles (BEVs) produce significantly fewer greenhouse gas (GHG) emissions than ...

This paper explores the implementation of battery electric vehicles (BEVs) in underground mining operations, focusing on their benefits, challenges, and safety considerations. The study ...

Battery Electric Vehicles (BEVs) and Hybrid Electric Vehicles (HEVs) share some components, but not all: Auxiliary battery: Both BEVs and HEVs use an auxiliary 12V battery for low-voltage systems (lights, infotainment, etc.).

These components are specifically designed for automotive batteries used in battery electric vehicles (BEVs) and plug-in hybrid vehicles (PHEVs), with the expansion finalized as of June ...

Uganda is moving toward electric vehicles (EVs) to address pollution and reduce transportation costs. With over 3,000 EVs on its roads and 90% of its electricity coming from renewable ...

Therefore, this study conducts a comparative life cycle assessment of battery electric vehicles (BEV) in the top 10 electric vehicle-selling developing countries for current (2023) and future ...

The UK government has reconfirmed its plans for a ban on pure petrol and diesel vehicle sales by 2030, with hybrid vehicles following in 2035 for cars, leaving only zero emissions vehicles, of ...

Fuel cell vehicles (FCVs), which convert hydrogen into electricity via an electrochemical reaction, offer several benefits compared to internal combustion engine (ICE) vehicles and battery ...

The storage is provided through a combination of fleet vehicles and stationary batteries with Nuvve Corp as the aggregator. Thus, in addition to functioning as vehicles for their primary ...

This has probably got to be the largest rollout of electric motorcycles in Africa in a single day! And Spiro followed this up by deploying another 300 bikes the following day and another 150 bikes ...

Hydrogen fuel cell cars (FCEVs) have been on the market for a similar duration to the current wave of battery EVs (BEVs). But they have sold a tiny fraction in comparison. In 2024, 12,866 ...

The global electric vehicle (EV) market is witnessing a significant resurgence, with sales in the first half of the year exceeding 5.9 million battery electric vehicles (BEVs), according to a ...
