??PT Aneka Tambang(Antam)?PT Indonesia Battery Corporation(IBC)???,????????????(CBL)???,??59????????(EV)?? ...

GM's big bet on affordable EV batteries is here General Motors is significantly reducing electric vehicle prices by adopting lithium iron phosphate (LFP) battery technology, which has been ...

Apart from proposing to tighten export restrictions on battery cathode material preparative technology, China plans to enhance export curbs on specific technologies and processes used for extracting metallic gallium and lithium, ...

July 2, 2025 Vanadium Redox Flow Batteries: A Safer Alternative to Lithium-Ion Technology As the global push for renewable energy accelerates, the demand for safe, sustainable, and ...

China has imposed export restrictions on eight key EV battery technologies as the country seeks to consolidate its dominance in the global EV race. The move makes it harder for Chinese ...

Desay Battery, a top supplier of all-inclusive energy storage solutions worldwide, launched mass production in Changsha, China. UPS 2.0, a new generation of proactive safety battery cells and systems, and...

Battery Breaking-News Headlines Tesla earnings tumble again; Ultion hits the jackpot in Vegas; home battery installations are booming in Australia; Moss Landing fire cleanup finally set; and tariffs make toys "batteries ...

The event showcased a new generation of proactive safety battery cells and systems, UPS 2.0, and Data Center Energy Integration: Source-Grid-Load-Storage Solution marking a key milestone in Desay's mission for high ...

The new generation of battery technology is central to China's success in building electric cars that are considerably cheaper than electric and gasoline-powered cars made in other countries.

Italvolt is Italy's first large-scale battery manufacturer, launching a 45 GWh facility in Scarmagno by 2025. Specializing in NMC lithium-ion cells for EVs and energy storage, it utilizes XFC and solid-state technologies, supporting sustainable ...

Taking the 2025 AITO M9 equipped with CATL's 166Wh/kg ultra-high energy density battery as an example. This battery meets industry-leading structural and thermal safety standards, and is ...
