Should Kazakhstan adopt an energy security strategy?

Global trend of tightening carbon regulation presents yet another impetus for broader modernization and systemic reforms of energy sector in Kazakhstan. Kazakhstan should articulate and adopt an official Energy Security Strategy document, guided by these general observations.

What makes Berkeley Energy unique?

Berkeley Energy's technical and operational capabilities are complemented with dedicated financing, legal, and structuring professionals with experience in private equity, infrastructure, and renewable energy transactions.

Which project will boost Kazakhstan's oil production in 2024-25?

Tengiz: Future Growth Project is main source of Kazakhstan's incremental oil production during 2024-25. Kashagan: Phase 2 development is likely to lift project output through 2030s, cushioning overall national production decline trajectory.

Is the Kazakhstan-China pipeline a good option for Kazakh oil exports?

The Kazakhstan-China Pipeline (KCP) was main non-Russian route for Kazakh oil exports in 2022. - KCP remains substantially underutilized, as it tends to yield relatively unattractive netbacks given fixed China border price at discount to an international benchmark and provides access to one market (and buyer).

Is Kazakh ready to transition to market-based refined product prices?

Kazakh authorities remain officially committed to a gradual transition to market-based refined product prices, in keeping with the Eurasian Economic Union (EAEU) goal of launching a common market in oil and refined products in 2025 (e.g. raising the ceiling on gasoline and diesel prices).

Are Kazakhstan's crude oil barrels the most expensive in the world?

2023 S&P Global. Kazakhstan's barrels are not the most expensive in the world to produce, but most of its "new" barrels still lie at the high end of the global cost curve. Notes: Ranking as of third quarter 2023 for 30 largest crude oil producers in 2022.

Berkeley Energy Corporate Solutions ("BECS") has been established by Berkeley Energy with the ambition of becoming the market leading provider of energy and decarbonisation solutions to commercial and industrial ("C&I") customers in ...

The Ph.D. Degree in Energy and Resources is typically completed four years beyond the Masters Degree. Masters Degrees in Energy and Resources (M.A. or M.S.) The Energy and Resources Masters Degree is a two-year program ...

Management of Environmental and Social (E& S) aspects is vital to deliver economically sound investments that have long-term value for our stakeholders and shareholders. Berkeley Energy is committed to ensuring that investments do not adversely impact the local community and the environment and have lasting E& S benefits.

The mission of the Berkeley Power and Energy Center (BPEC) is to further research and education in the power and energy area through engagement with industry. We seek to create an ecosystem where leading academic researchers and top industry partners can share and exchange ideas in pre-competitive research areas, advance the frontier of technology, and [...]

One of the first major law schools to address and advance environmental law, UC Berkeley Law stands at the forefront of this important field. Students can take a broad range of courses, engage in cutting-edge research and writing at the top-ranked Ecology Law Quarterly journal, gain hands-on experience on behalf of real-world clients at our impactful Environmental Law Clinic, and ...

The funds are mainly focused on grid-connected, utility scale projects using traditional, proven renewable energy technologies such as hydro, wind, solar and battery energy storage systems (BESS). Investments are supported by local ...

The California Institute for Energy and Environment (CIEE) is a dedicated group of experts working to define, plan, and manage public-interest energy research. CIEE puts leading researchers to work on energy challenges, yielding new ideas and technologies to meet California's pace-setting energy goals. ... 2150 Allston Way Suite 280 Berkeley ...

energy | August 15, 2017. The Renewable Energy Asia Fund II (REAF II) invests in small hydro, wind, solar, and biomass projects in Asian developing markets, with a primary focus to date in India, the Philippines, and Indonesia. REAF II held its first close in March 2016 and final close in November 2017. Categories: Quantum - Solar - Indonesia

The Ph.D. Degree in Energy and Resources is typically completed four years beyond the Master's Degree. Master's Degrees in Energy and Resources (M.A. or M.S.) The Energy and Resources Master's Degree is a two-year program designed to educate the next generation of interdisciplinary leaders.

2 ???&#0183; The Energy Act of 2020 calls for the U.S. Department of Energy to make available to the public an update to Lawrence Berkeley National Laboratory's prior study entitled United States Data Center Energy Usage Report (2016). This report, designed to meet that Congressional request, estimates historical data center electricity consumption back ...

Berkeley will launch new Masters of Climate Solutions degree in 2025 . Organizations, cities, and states around the world are charting paths to quantify and curtail their carbon emissions and uncovering business avenues within climate solutions. ...
