The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

Inverter(s): Converts solar energy into energy that your home can use. Racking equipment: Mounts solar panels to your roof. Monitoring equipment: Tracks the amount of energy your solar panels generate. Solar battery (optional): Stores excess electricity for use later on.

Since that time, Honduras has become the site of our first Solar Direct project, in which Solar Under the Sun coordinates service trips. As of summer 2023, SUS has installed systems in 66 homes in El Horno, Honduras. Including 10 systems installed by local people trained by SUS teams with equipment left in Honduras for planned projects in 2020.

Debido a la gran cantidad de zonas rurales aisladas y de dif&#237;cil acceso en Honduras, la energ&#237;a solar es el &#250;nico m&#233;todo para llevar iluminaci&#243;n a esas zonas. Este tipo de paneles solares pueden ser instalados en cualquier locaci&#243;n del pa&#237;s, ya sea dentro de las grandes ciudades como las zonas m&#225;s remotas que pueda imaginar.
