

Bosnia and Herzegovina energy storage applications

Can solar power plants be used in Bosnia & Herzegovina?

From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants. It was estimated that energy produced from solar power plants could be 70.5 × 10⁶ GWh/year and the most suitable area is Herzegovina.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization. 1. Introduction

How to promote energy transformation in Bosnia & Herzegovina?

Promote the implementation of programmes, priority measures, and activities in the sector of energy transformation, transmission, and distribution of natural gas, planned within the existing strategic and planning documents and relevant energy companies. In 2021, Bosnia and Herzegovina imported practically all quantities of oil derivatives.

What role does natural gas play in decarbonization in Bosnia & Herzegovina?

Natural Gas: In the context of the ambitious decarbonization scenario in Bosnia and Herzegovina by 2030, natural gas can have a certain role in the energy mix in final energy consumption. Although natural gas is a fossil fuel and emits greenhouse gases during combustion, it is considered less polluting than other fossil fuels such as coal and oil.

What is the integrated energy and Climate Plan in Bosnia & Herzegovina?

1.1.3.3 Policies and measures to achieve goals The Bosnia and Herzegovina integrated energy and climate plan prescribes policy instruments and appropriate measures to achieve the goals by 2030. An overview of the plan policies and measures is given in the Table below. Establishing the legal obligation to perform a cost-benefit analysis.

Does BH Gas manage the transport network in Bosnia & Herzegovina?

According to the Regulation on the organisation and regulation of the gas sector, the company BH Gas manages the transport network in the Federation of Bosnia and Herzegovina, however, there is no legal basis for separation under the Third Energy Package because no law has been passed in the FBiH that regulates this area.

Bosnia and Herzegovina does not operate any nuclear power plants. It uses radiation sources for industrial and medical applications. "This IRRS mission was successful thanks to the openness and transparency of the SRARNS," said Igor Sirc, team leader and Director of the Slovenian Nuclear Safety Administration.
