

Bosnia and Herzegovina solar container system

Can solar power plants be used in Bosnia & Herzegovina?

From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants. It was estimated that energy produced from solar power plants could be 70.5 × 10⁶ GWh/year and the most suitable area is Herzegovina.

How many biogas power plants are there in Bosnia & Herzegovina?

Currently, there are 2 biogas power plants in Bosnia and Herzegovina, one in Banja Luka and the other in Lower Zabar near Brcko District. However, these are very small plants, with insufficient power and an impact on savings.

How many hydropower plants are there in Bosnia and Herzegovina?

There are 390 planned hydropower plants and 35 are under construction. It is evaluated that hydropower plants could provide 9,000 GWh of maximum generated energy. Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity.

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

What are the main RES in Bosnia & Herzegovina?

The main RES in B&H, hydropower plants, solar power plants, wind power plants and geothermal energy will be given in accordance with existing data, reports and literature. In addition, the review also summarizes data on the use of bioenergy including biogas, biofuels and overall use of biomass in Bosnia and Herzegovina. 2.

How many wind farms are there in Bosnia & Herzegovina?

In total, there are seven current and planned wind farms with an annual production of 936.17 GWh. From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants.
