

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...

Bulgarian Legal News and Legal Analysis On 1 July 2025, the provisions of the Civil Procedure Code (CPC) regulating the new provisions in Chapters Thirty-Six "Issuance of a Writ of Execution" and Thirty-Seven "Order ...

The project establishes battery storage as a central element of Bulgaria's future energy supply and uses state-of-the-art algorithmic trading software and innovative incentive structures to exploit the full potential of ...

On July 17, Gotion High-Tech, a Chinese battery manufacturer, launched production of its 5MWh Gotion GRID energy storage system at its Göttingen, Germany facility, as announced on its ...

"The 100MW/400MWh standalone battery energy storage system (BESS) project will enhance the resilience of the electricity network by generating electricity and providing additional technical ...

Heating, ventilation, and air-conditioning (HVAC) systems account for the largest share of energy consumption in European Union (EU) buildings, representing approximately 40% of the final ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation phases ...

The integration of isobutane in energy storage solutions faces several significant challenges that hinder its widespread adoption and optimal utilization. One of the primary obstacles is the ...

Recently, the German Federal Court of Justice (BGH) issued a landmark ruling confirming that local grid operators have the right to charge grid connection fees (BKZ) for energy storage ...

Tomorrow's clean and renewable electric grid will be built on a foundation of flexible, responsive energy storage technologies. Supporting the equitable scale-up of those technologies, and the development of applications ...

Your input will support the development of a robust legislative instrument that lays down new rules on demand response, enhances flexibility and interoperability with a focus on decentralised ...

Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the

Bulgaria energy storage regulations

largest battery storage project in Romania. The facility, to be built in Floresti, Cluj ...

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

The Clean Electricity Investment Tax Credit under Section 48E of the Internal Revenue Code (IRC) represents a pivotal incentive for advancing zero-emission electricity generation and ...

Background The gas storage regulation was adopted in June 2022, at the heart of the energy crisis, to ensure sufficient storage levels crucial to supply EU homes and businesses ...

Solar and wind generated 40.2% of the ERCOT grid's electricity this year through June. When coal plants shut down for unexpected maintenance, solar and wind stepped in, providing about ...

Energy projects will need to begin construction (as that concept is elaborated in Internal Revenue Service (IRS) Notices 2013-29 & 2018-59) prior to January 1, 2026, in order to avoid the impact of these FEOC restrictions. These Notices ...

According to a latest report from market intelligence firm Clean Energy Associates (CEA), the U.S. energy storage system (ESS) battery manufacturing capacity is facing severe challenges. As ...

Struggling to understand how Energy Storage Systems (ESS) help maintain grid stability? This in-depth, easy-to-follow blog explores how ESS regulate frequency and manage peak loads, ...

Neopentane-based battery technology, while promising, faces several significant challenges that hinder its widespread adoption in advanced energy storage solutions. One of the primary ...

Businesses can receive between 30,000 levs and 100,000 levs per project to invest in energy-efficient equipment and facilities that support in-house electricity generation and storage, the ...
