

Cabo Verde amprius technologies

Does Amprius have a silicon anode platform?

FREMONT, Calif. - June 20, 2024 - Amprius Technologies, Inc. ("Amprius") (NYSE: AMPX), a leader in next-generation lithium-ion batteries with its Silicon Anode Platform, today announced a strategic initiative to rapidly increase the global production capacity of its SiCore™ offering through new manufacturing partnerships.

Where is Amprius based?

The company's corporate headquarters is in Fremont, California, where it maintains an R&D lab and a MWh scale manufacturing facility for the fabrication of silicon anodes and cells. To serve customer demand, Amprius entered into several agreements to secure over 500MWh of contract manufacturing available today.

Does Amprius ship a-sample EV cells?

Amprius Ships A-Sample EV Cells to United States Advanced Battery Consortium (Graphic: Business Wire)

Why does Amprius have multiple manufacturing partners?

Multiple manufacturing partners also helps mitigate risks from potential production delays, equipment failures, and supply chain disruptions. The SiCore product family complements Amprius' industry-leading SiMaxx™ product line.

Does Amprius work with USABC?

Amprius has held technical engagements with multiple automotive OEMs and has had a long-standing collaboration with USABC.
