Residential Solar Permit Reporting Program - SB 379 The Energy Commission's reporting hub for California cities and counties to annually provide data about online, ...

SACRAMENTO - Governor Gavin Newsom today announced California achieved an historic milestone - the state was powered by two-thirds clean energy in 2023, the latest year for which data is available. California is the largest economy in ...

California has officially achieved a landmark milestone: solar power frequently dominates electricity generation within the state. This isn't a future prediction; it's a recurring reality, ...

These adverse state policy impacts exacerbated financing shifts, triggering plummeting demand and an 80% decrease in rooftop solar installation volume. The California Solar & Storage Association reports that the fallout ...

Planned for 14 square miles in Fresno County, the project will provide up to 1,150 megawatts of solar energy and 4,600 megawatts-hours of battery storage. Dubbed the Darden project, it ...

EDPR NA Distributed Generation, the distributed generation business of EDP Renewables North America, and California Water Service have signed a 20-year PPA for a 2.35-MW DC onsite solar array at Cal Water's Northeast Bakersfield ...

The state's battery storage capacity, now over 15GW, stores surplus solar energy generated during the day for use in the evening, enhancing grid reliability. David Hochschild, chair of the ...

Through the first five record-setting solar and battery months of 2025, 11.5% of California's potential solar generation was curtailed to maintain grid balance. That's down from 13% over ...

As I'll explain here, this 22% difference in Peak Sun Hours will equate to a 22% difference in solar energy production. In solar energy applications, what truly counts isn't the hours between sunrise and sunset in a ...

A unit of EDP Renewables (EDPR), part of Portuguese utility group EDP Energias de Portugal SA (ELI:EDP), will supply power from an on-site distributed solar farm to California Water Service ...

Solar Optimum, a leading force in renewable energy, is proud to announce its monumental achievement of retaining the coveted #1 California Residential Solar Contractor (EPC) ranking ...

Transparent solar windows that capture ultraviolet and infrared light are now available in the US, enabling
