

Canadian solar ep cube Spain

Who makes EP Cube?

EP Cube is developed and produced by Eternalplanet, a consumer-oriented independent brand of energy technology under Canadian Solar's CSI Solar subsidiary. The EP Cube integrates a hybrid inverter with stackable storage modules, while simultaneously absorbing communication cables and wires together in a stacked-up module design.

What is EP Cube?

EP Cube is a flexible and smart solution that optimizes costs and reduces users' reliance on the electrical grid, at a time of elevated electricity prices. EP Cube is developed and produced by Eternalplanet, a consumer-oriented independent brand of energy technology under Canadian Solar's CSI Solar subsidiary.

Is Canadian Solar a bankable company?

Canadian Solar is one of the most bankable companies in the solar and renewable energy industry, having been publicly listed on the NASDAQ since 2006. For additional information about the Company, follow Canadian Solar on LinkedIn or visit [m](#).

What is the capacity of the EP Cube?

Each module has a capacity of up to 3.3 kWh and weighs less than 35 kg, making it easy to transport, handle and install. The minimum capacity of the EP Cube is 6.6 kWh with the possibility to stack modules up to a capacity of 19.9 kWh, offering a wide range of possibilities for every household.

How does the EP Cube storage system work?

The EP Cube storage system aesthetically and compactly integrates a hybrid inverter, UPS functionality and lightweight, stackable battery modules via plug & play connectors. Each module has a capacity of up to 3.3 kWh and weighs less than 35 kg, making it easy to transport, handle and install.

Are EP Cube batteries safe?

The EP Cube uses lithium ferrophosphate (LiFePO₄) technology in its batteries. IEC-certified and IP67-rated, it offers a system warranty of 10 years or 6,000 cycles. Safer and more reliable with multiple quality guarantees. Our strict quality controls ensure one of the safest and most reliable storage solutions on the market.
