CG Power Systems is one of the world's top ten manufacturers of three-phase transformers. Crompton Greaves (CG) is part of the \$3bn Avantha Group, a conglomerate with an impressive global footprint. Since its inception, CG has been synonymous with electricity: in 1875, a Crompton "dynamo" powered the world's very first electrically lit house in Colchester, Essex, UK.

CG supplies traction transformers for all applications: locomotives, tram-trains and AC metros offering different designs in terms of size, weight and power ratings. They can be mounted either in the machine room of the train, on the roof or under the floor, providing maximum flexibility and reliability in single and multiphase systems.

MML Capital Partners has been cleared by the competition authority to acquire a controlling stake in CG Power Systems. It's now hoped new jobs can be created at the Cavan Town facility through investment - particularly by tapping into the growing electric vehicle (EV) and renewable energy markets.
