In December of 2019, I was fortunate enough to be part of an expedition to Comoros that brought so many powerful experiences of mine full circle. Being less than 2 years removed from finishing my own service as a Peace Corps Volunteer (PCV), having the opportunity to get back out on the ground to work alongside current PCVs was a very special ...

will finance solar PV power plants with battery storage in the three islands of the Comoros as well as system upgrades, rehabilitation, and automation to facilitate integration of solar power into the grid. It has three main subcomponents. Together,

The monthly UVI climatology estimated in Comoros by the OMI instrument shows a UVI in clear-sky conditions and at local solar noon varying between 7 and 16, and a UVI in all-sky conditions varying between 4 and 11 one hour on average after the local solar noon. The UVI maxima are observed during the wet season.

Comoros energy storage photovoltaic. The Government of Comoros wants to improve the supply and storage of solar on its islands and is inviting applications for the development, operation and maintenance of multiple PV plants with a combined output of 9 MW, as well as battery and storage facilities totaling 20 MW
