Costa Rica is the most developed country in Central America and attracts over 2 million tourists each year! With tourism being its highest source of income Costa Rica has been sculpted to welcome and make life easier and safer for tourists. Families, youngsters and solo travellers are most welcome. As a country Costa Rica is a stable democracy.

Our mission is to educate households on the benefits of solar energy while providing practical solutions to tap into the energy of sunlight. Our products are sourced from selected manufacturers who prioritize quality in each item they offer. And we make sure we bring these products to Costa Rican households.

With the new policy that ARESEP and MINAE have put into place for Costa Rica's net metering, there is a new rule that impacts all the new systems installed called the 49% rule. This rule allows you to receive 49% of your total monthly production credited for your billing, so your auto consumption is also factored in.

Costa Rica: Energ&#237;a solar representa el 1%, mientras que en Honduras alcanza el 20%. Costa Rica: La
