Trojan Energy | 4,026 followers on LinkedIn. Serving communities, preserving streets. | Trojan Energy was formed in 2016 with one mission: to ensure everyone benefits from the energy transition. With total focus on enabling the switch to eMobility, we developed the Trojan Electric Vehicle Charging System. A system that finally offers an equal chance for EV drivers without a ...

In addition to expanding into new cities across the UK, Trojan Energy is also developing publicly accessible electric vehicle (EV) charge points that can be installed in the street outside a customer's home, powered by their domestic electricity supply ...

A Trojan Energy charger supplies power to your electric car to charge the battery. The charger itself is embedded into the ground and lies flat and flush with the surface of the pavement. We give you a Lance to connect your car to the charger. Simply insert the Lance into the charger and connect your car with a cable to begin a charging session.

Aberdeen based Trojan Energy specialises in flat-and-flush vehicle charge points which remove the requirement for any obstructive roadside infrastructure and leave the pavement clear of clutter. Trojan's innovative technology aims to provide access to EV charging for those that do not have access to off street parking.

Just days before Croatia took its position in charge of the EU, the country's biggest trial came to an abrupt conclusion with the announcement of the court ruling against head of Hungarian energy group MOL, Zsolt Hernadi, who was found guilty of bribing former Croatian Prime Minister Ivo Sanader to allow MOL to take
