RNA Energy provides battery energy storage systems for commercial and industrial customers across the UK. Battery energy storage is a solution that has been used in data centres and the IT industry for decades but ...

Brockwell Storage & Solar Limited is an active company incorporated on 12 October 2015 with the registered office located in London, Greater London. Brockwell Storage & Solar Limited has been running for 8 years. There are currently 7 active directors according to the latest confirmation statement submitted on 7th January 2024.

Closing the financing for the two projects, which included a significant debt package, is one of the largest battery storage investments in the UK sector and reaffirms RNA's position as a leading energy storage and renewables platform with a deep, high quality, proprietary project pipeline.

RNA believes that the current energy crisis coupled by a significant imbalance burden that is today left with renewable energy generators offers a very compelling opportunity for flexibility assets such as storage on the medium to long term while the country still needs to significantly grow its renewable generation capacity to meet the EU Net-Zero targets.

Brockwell's focus is on a range of renewable technologies, including Energy-from-Waste (EfW) and onshore wind. We are also keen to explore the investment opportunities around other exciting projects such as solar photovoltaics (PV), battery storage and hydrogen, and other flexible generation assets to support the government's drive towards ...
