A major renewable energy agreement has been forged between Cypark Resources Berhad (Cypark), Melaka Corporation, and Jakel Capital, aiming to deliver 1,000 MW of solar energy to the German Technology Park (GTP) in Melaka. This ambitious project forms part of a strategic plan to transform the GTP into a state-of-the-art, sustainable industrial hub ...

Off grid photovoltaic systems are completely independent of the grid. The energy produced by the solar panels are collected and stored in special batteries that are rechargeable. A device called a charge controller regulates the raw DC power to prevent overcharging and protect the batteries. Batteries store energy in the form of Direct Current, therefore another device called an inverter ...
