

Cyprus promethean power systems

Background. Grid power is extremely unreliable in some parts of North and East India. In summer the outages can be as high as 20 hours/day. The summers are also extremely hot with temperatures regularly exceeding 40 o C in the months of May and June.. Running a Diesel Generator to chill milk at the collections centres under such conditions is extremely costly due ...

Promethean"s Micro Can-Chillers are cost-effective way to ELIMINATE SPOILAGE & procure HIGHER MBRT milk by arresting bacterial growth at the VLCC & farm level itself. These stand-alone units can chill UPTO 6 CANS PER SHIFT & can be a great add-on to an existing "Chilling Centers" to expand its catchment area & also REDUCE COST OF PRIMARY ...

Through his company Promethean Power Systems, Grama was able to develop a thermal battery that can replace diesel generators as a more cost-effective backup power source. The thermal battery charges itself from the main power source, requiring only about five hours of energy within a 24-hour period. If the main power goes out, the thermal ...

Promethean's Rapid Milk Chiller is a modular milk chilling system that instantly cools milk from 35 °C to 4 °C without a diesel generator. The system can chill 1000 litres of milk per day, even if there is no power during the milk collection by using only 4 hours of intermittent grid power between each milking shift.

Promethean's Conventional Milk Chiller is a modular milk chilling system that can cool from 35 °C to 4 °C without a diesel generator. The capacity of the system ranges from 500 Litres/Day to 2000 Litres/Day. It works even if there is no power during the milk collection by using only 4 hours of intermittent grid power between each milking shift.

Promethean Power Systems" thermal battery stores thermal energy in the few hours when the grid is available and releases the energy when needed to provide cooling power. "We recently received a new, large order from one of India's largest dairies that happens to be an existing customer. Repeat orders are important to us because it proves ...
