

Cyy energy Morocco

Who is cyy energy?

CYY Energy is a Scientific and technological production which is dedicated in research, development & innovation of air separation units, natural gas liquefaction units and cryogenic chemical equipment. The company has advanced design capabilities, mature project management system, and high-quality manufacturing processes.

What makes cyy energy a good company?

The company has advanced design capabilities, mature project management system, and high-quality manufacturing processes. Copyright 2019 CYY Energy. All Rights Reserved. ?ICP?15012807?-1

How can Morocco improve energy security?

The Government of Morocco seeks to increase security of supply by reducing dependence on energy imports, including increasing use of renewable sources for electricity production. As of the end of 2022, the share of renewable energy in the electrical capacity mix stood at 38 percent, or 4,154 MW.

How much solar power does Morocco have?

Morocco has an average solar potential of 5 kilowatt hours (kWh) per square meter per day, although this varies geographically. Total installed capacity from solar energy currently stands at 831 MW. According to the Ministry of Energy Transition, and Sustainable Development, Morocco could potentially generate 25,000 MW of wind power.

How much wind power does Morocco have?

Total installed capacity from solar energy currently stands at 831 MW. According to the Ministry of Energy Transition, and Sustainable Development, Morocco could potentially generate 25,000 MW of wind power. At present, Morocco has an installed capacity from wind energy of 1553 MW, the second largest volume in Africa behind South Africa.

How did Morocco enter the international LNG market in 2022?

Morocco entered the international LNG market for the first time in 2022, completing several LNG purchases on the spot market, thanks to consistent cooperation with Spain, using Spanish LNG terminals to import gas and directing the gas from north to south via reverse flow through the Maghreb Europe Gas (MEG) pipeline.

CYY Energy is a high-tech production corporation which is dedicated in research, development & innovation of air separation units, natural gas liquefaction units and cryogenic chemical equipment. The company has advanced design capabilities, mature project management system, and high-quality manufacturing processes.
