Who is evklips energy?

EVKLIPS ENERGY IS A BULGARIAN-BASED, PRIVATELY-OWNED COMPANY WITH PROVEN TRACK RECORD IN SOLAR POWER PLANTS CONSTRUCTION AND INSTALLATION ACTIVITIES ON 3 CONTINENTS. Our experts combine unparalleled industry knowledge and experience to deploy high quality solar energy solutions.

How much power does DR Congo have?

According to the latest figures from the International Renewable Energy Agency, DR Congo only had 20 MW of installed PV capacity at the end of 2020. The country has one of the lowest levels of access to electricity in the world, with only 9% of the population being supplied with power. This percentage in rural areas drops to as far as 1%.

When will DR Congo's solar power plants be built?

The plants are to be built by the Moyi Power joint venture and are expected to be completed within 18 months after the start of construction. According to the latest figures from the International Renewable Energy Agency, DR Congo only had 20 MW of installed PV capacity at the end of 2020.

How will Nuru empower 5 million Congolese people?

By delivering world-class renewable energy and connectivity services, Nuru aims to empower 5 million Congolese people, one connection at a time. Moving ahead, it will be important to strengthen the public sector and the government's capacity for cross-unit delivery in order to effectively finance renewable energy mini and metro-grids.

KINSHASA, October 14, 2024 - The Democratic Republic of the Congo has cancelled a bid round for 30 hydrocarbons blocks launched in 2022, Reuters reported on Monday. Citing the country's Ministry of Hydrocarbons, the report said the round has been called off due to late submissions, inappropriate or irregular offers and a lack of competition.
