

Dale power solution Bulgaria

Who are Dale Power Solutions?

Dale Power Solutions is one of the UK's largest suppliers of uninterruptible power supplies (UPS) and emergency backup generators. We offer a wide range of commercial and industrial power supply products to suit a variety of industries.

Who are Erskine & Dale Power Solutions?

Our Erskine brand AC and DC secure power systems serve the most demanding markets. We offer a range of services, including support for all your diesel generators, gas turbines and DC UPS systems. Dale Power Solutions supplies secure power solutions to all major UK and international market sectors.

Why should you choose Dale power supply?

Widely regarded as an established global brand leader within the power industry, Dale's design and technical expertise, coupled with a network of service and installation engineers and spare parts supply means we are uniquely qualified to deliver and maintain power supplies under any conditions, in any environment.

We are one of the largest and leading independent suppliers of battery management for generators and Uninterruptible Power Supply (UPS) in the UK. Help centre. Products. UPS Solutions. Commercial UPS; ...
At Dale we can ...

With a solid background in engineering and property management, he has risen to be the present Director at Dale Power Solutions. Folorunsho Kolade. Head, Technical. A very experienced electrical engineer certified from University of Ife. He has attended various maintenance related course both in Nigeria and abroad.

OFTEC inspections from Dale Recommended annually, we carry out your OFTEC inspection with our own team of OFTEC-registered engineers or OFTEC-registered technicians. We can ensure your compliance with industry regulations and OFTEC approved controls.

cutting-edge genset ...

We have extensive experience in delivering customised solutions that meet industry-specific needs of the transport, marine, oil and gas and telecommunications industries, alongside delivering solutions to military and WIMES 3.07 specifications and standards. Our solutions are built to function in even the most rugged and harsh environments.

Industrial DC UPS / Battery Chargers - Single Phase Input. The DCV and CV range of single-phase input Thyristor based DC systems can be configured to provide DC output voltages from 24V up to 220V nominal with output currents up to 250A.

High input power factor and efficiency; Low distortion near sinusoidal input current; Compact, power dense and small footprint solution; Ease of maintenance and operation; Redundancy with N+1 optional inverter and rectifier module arrangements; Remote Communications capability; Available in 24V, 48V, 110V and 220VDC nominal bus voltage ...

A telecoms company reached out to Dale Power Solutions to see if we could help them capture the excess renewable energy they were producing. The need. With 88KW of solar PV on their rooftop, their generation far outweighed their energy consumption. As things were, they sold their excess back to the grid for 5.5p per KWh.

Tailored to your needs. With 24V, 48/50V, 110V or 220V DC nominal voltages and 25A to 1250A DC outputs, single or three phase inputs, our range of DC systems can be tailored to suit your needs and are compatible with lead acid, nickel cadmium or lithium ion batteries. Our Industrial DC systems have a wide range of applications that can be found in power generation, substations, ...

Achieving power density improvements of 200% to 300%, the SR range of switch-mode rectifiers are available in a wide variety of power ratings offering the most compact and cost effective power system design. ... Solutions. UPS; Generators; Service & Support; Battery Energy Storage Systems (BESS) Knowledge base. FAQs; News; Case Studies; Blog ...

Diesel generators are those that are run on diesel, and can typically be divided into two basic parts: a diesel engine and an electrical generator. Diesel generators can be used to provide power to places that are not powered by a power grid or can be used as a backup in case of a power outage. Natural gas generators

Dale Power Solution battery systems are warrantied for 10-years which covers cycling up to twice per day, every day of every year. Increased need for maintenance and monitoring. All our customers can access our maintenance and service packages, which come as standard. We have over 80 fully qualified, expert maintenance engineers across the UK.
