countries.

ARED's main product is the Smart Solar Kiosk (SSK), which they aptly describe as a "business in a box solution". The little kiosk on wheels is a solar-powered one-stop shop for electronics users: customers can charge their phones and connect to the internet. They also have the option to purchase prepaid electricity at the kiosk.

Using this joy to adapt and overcome the initial teething issues, NOTS successfully managed to develop a business model for selling their SHS on credit in a pilot with 5,500 households. Aiming to raise \$3 to \$5 million, they are also the first solar ...
