

Tunisia's Tragedel is involved in a project to support the electricity sector in Chad, known as PASET, which is designed to improve the country's low electrification rate, currently around ...

Detailed info and reviews on 49 top Energy Management companies and startups in Germany in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

With a focus on interconnectivity, clean transition pathways, and long-term energy security, She highlighted Tunisia's commitment to driving integration across borders and placing the ...

Transformative solutions for a reliable, resilient and intelligent energy future. The falling costs and growing adoption of distributed energy resources (DER) such as renewable energy, storage systems and microgrids ...

Tunisia has recently unveiled ambitious plans to construct two new solar power plants, each boasting a capacity of 100 megawatts, in the regions of Tataouine and Kairouan. This initiative ...

State estimation in distribution power systems is increasingly challenged by the proliferation of distributed energy resources (DERs), bidirectional power flows, and the growing complexity of ...

During her presidency of the first meeting of the Horizontal Committee for Energy Security on Tuesday, Minister of Industry, Mines, and Energy Fatima Thabet Chiboub called for ...

The DEIP Interoperability Steering Committee (ISC) supports the development and implementation of industry technical standards with a focus on interoperability capabilities to better enable the integration of Distributed ...

Pr&#233;sent en Tunisie depuis 2004, Safran emploie plus de 2 700 collaborateurs r&#233;partis sur trois sites, situ&#233;s &#224; Dhari, Soliman et Grombalia, et y d&#233;veloppe et produit des syst&#232;mes embarqu&#233;s, des &#233;quipements ...

Tunisia's primary energy deficit reached 2.2 million tonnes of oil equivalent (Mtoe) by the end of May 2025, a 12% increase compared to the same period in 2024. Without the transit fees from ...

Without significant diversification of supply and improvement of grid flexibility, energy systems in the region, including Tunisia's, remain vulnerable to disruptions and may see their ...

Distributed photovoltaic storage charging piles in remote rural areas can solve the problem of charging difficulties for new energy vehicles in the countryside, but these storage charging ...
