produce energy from solid waste, said executives of the company Streamline Integrated Energy Corp, which plans to build a plant generating in the eastern part of the country. According to Mitchell Van Heyningen, company president, Marc Mcmenamin, director of ...

ASTECC was founded in 1972 with the vision to apply creative thinking and state-of-the-art technology to traditionally low-tech industries, bolstered by a corporate culture renowned for putting customer service first. Based in Chattanooga, our market-leading brands have become a global leader in the manufacture of equipment from Rock to Road ...

The addition boosts the wind farm's capacity from 34 MW to 50 MW, enabling it to supply clean energy to more than 50,000 Dominican homes and reduce the need for importing approximately 258,000 barrels of oil. This expansion strengthens Matafongo's position as a key player in the Dominican Republic's renewable energy sector.

Rapidly swirling high energy air is the key to the Whisper Jet burner's efficient combustion. The swirling air and flame are created by the fixed internal spin vanes and the patented castellated nose, ring, and nozzle design. The Whisper Jet burner uses unique patented technology to burn clean and efficiently.

Expired or damaged railroad ties can be valuable for a variety of applications. The creosote-treated railroad ties are a valuable energy source, once they have been broken down into a manageable and consistent size. Horizontal grinders can process considerably more railroad ties than typical slow-speed shredders.

The benefits of warm mix asphalt, such as reduced energy consumption, lowered emissions, and elimination of visible smoke, are well-known in the asphalt paving industry. Warm mix technology allows mix to be prepared and placed at lower temperatures than conventional hot mix. ... The Astec warm mix system injects a small amount of water into the ...

KPI-JCI and Astec Mobile Screens has introduced the new-generation track-mounted GT125 Vanguard Jaw Crusher, which offers increased energy savings, reduced cost of operation and improved reliability.. The GT125 is an ideal mobile crusher for aggregate production, mining, recycling and concrete applications. Its large, dynamically-balanced, heavy ...

Dominican Republic has adopted a law on incentives for the development of renewable energy sources, which aims to increase the diversity of energy sources, reduce dependence on imported fossil fuels and stimulate investment in renewable energy.
