Solar Off-Grid Irrigation, Wales UK August 27, 2024; We are sad to announce the death of Brian Marsh August 19, 2024; Meet Baburaja Shrestha: A Nepalese Farmer Transforming His Farming with A Solar Pump July 25, 2024

Our Pro Irrigation XL 5hp Pumps are the highest volume, mid-head, non-submersible solar pumps on the market. These are for applications where suction still may be necessary. Flood irrigation, canals, ponds, springs etc. Self priming suction up to 25" but the less priming, the better GPM production at lower head.

Solar irrigation can also have a positive impact on gender equality. Women in Africa and Asia make up 50% of the agricultural labor force, yet they have less access to credit and formal banking, which can be improved by credit history borne from payments for pay-as-you-go solar water pumps. Savings in time and labor were also seen in irrigation projects by the ...

During this week, on the 5 th December, Hatoum Trading officially launched the Futurepump SF1 in Ghana. The launch ...

future research should be focused on determining for larger Dominican farms whether multiple small-scale SDIS systems studied in this research or a large SDIS system should be implemented and whether such a system has a different techno-economical design. Keywords Dominican Republic, Solar PV, Drip irrigation, small-scale farming, techno-economical

From manual irrigation to solar. Manual irrigation is labour intensive and, as a result, the size of land you can cultivate is limited. Switching to solar can give you hours back in your day as the pump will move water for you - either directly to the crops or to a tank for gravity irrigation later. From electric pumps to solar pumps

De plus, l'énergie solaire est gratuite et en abondance pendant la saison sèche, lorsque les cultures nécessitent le plus d'eau. Les agriculteurs qui exploitent efficacement cette énergie gratuite en pompant de l'eau pour les champs et dans des réservoirs surélevés pendant la journée, alors que le soleil est le plus brillant, peuvent récolter d'énormes avantages.
