Bulgaria. EASY Returns & Exchange.

Solar Panels - Isofoton & Back. Photovoltaics provide clean, quiet, reliable electricity from sunlight where traditional sources are too distant, expensive, or environmentally unacceptable. With no moving parts to wear out, no emissions of any kind, and a limitless, readily-available power source, PV meets the need for electricity in places and ...

Solar systems for business and home. Design, construction and maintenance of photovoltaic systems in Bulgaria and Europe by Elsol Ltd. Skip to content. +359 888 078 538. ... Mounted PV panels. 482. Completed projects. 15. Years of experience. Business PV Systems.

Global Solar Bulgaria is a company specialized in the production of electrical energy through photovoltaics. Buys, designs and installs systems compliant with European standards. Our goal is to offer innovative products and services at the best price, which are part of the economic and ecological context of renewable energies.

With no customization required, the standard range of DUSOL solar panels are produced using standard cells and uses an industrially accepted standard arrangement of the cells. Following standard practices assures that both the electrical as well as mechanical properties of the produced solar panels are consistent with other commercially ...

The project will comprise nearly 400,000 solar panels. With an average annual power generation of 313 Gigawatt hours (GWh), it will produce the equivalent of 13% of Bulgaria's currently-installed solar power. The plant will be connected to the main 110 kV transmission grid via two independent connection lines totalling about 6 kilometres in ...

DUSOL's Standard range of solar panels are made using standard cells without making any alteration to the cell's physical and/or electrical characteristics. The standard range of DUSOL modules consists of either 36, 60 or 72 cells interconnected to elevate the voltage and keep the current equal to the cells' current. Careful consideration in match-
