What is energy dome?

Energy Dome solves the problem of long-duration energy storage with technology that is made with off-the-shelf components, it is scalable to your needs, with easy maintenance, and sustainable materials such as steel and CO<sub>2</sub>. It's the only solution that makes sense in the marketplace today to store renewable energy and start decarbonizing the world.

How can energy dome save the world?

Humbly speaking, there's only one way to start saving the world. Energy Dome solves the problem of long-duration energy storage with technology that is made with off-the-shelf components, it is scalable to your needs, with easy maintenance, and sustainable materials such as steel and CO<sub>2</sub>.

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Who is energy dome 'CO<sub>2</sub> battery' founder Claudio Spadacini?

Image: Energy Dome 'CO<sub>2</sub> Battery' startup Energy Dome was only founded in 2020 but has drawn the attention of media and investors alike already. The company, headquartered in Lombardi, Italy, was launched by CEO Claudio Spadacini to address the need for long-duration energy storage (LDES) at scale.

Joe Ferrari, US Sales Director at Energy Dome, presented the benefits of our CO<sub>2</sub> battery for both energy storage needs and CO<sub>2</sub> and discussed its merits relative to chemical batteries at a conference session "CO<sub>2</sub> as energy storage" on February 22. Then, back in Europe, we spoke and exhibited at the in London, which brought together Europe ...

With the launch of their commercial demonstration facility in Sardinia, Italy, Energy Dome's energy storage technology is ready for market. MILAN (June 8, 2022) - Energy Dome, a leading provider of utility-scale long ...

Energy Dome and renewable energy leader &#216;rsted will work together to explore possibilities to deploy one or more "CO<sub>2</sub> Battery" long-duration energy storage plants to support &#216;rsted's renewable energy projects in ...

Milan, Italy - 18, July- Energy Dome, a leading developer of innovative CO<sub>2</sub> Battery technology, has secured initial funding from Breakthrough Energy Catalyst, a global initiative dedicated to accelerating the development of climate solutions. This significant milestone marks a crucial step forward in the company's ambitious project to build a groundbreaking CO<sub>2</sub> Battery facility in [...]
