Bloom Energy Corporation (BE), known for pioneering in energy solutions, recently experienced a dramatic leap in stock prices. This notable shift can be tied to an upgrade by JPMorgan, raising its rating from neutral to overweight and ...

We prepare crude oil, natural gas and natural gas products, price forecasts for use in the marketplace, based on a detailed review of the most current commodity price and market ...

The increase in the forecast is driven largely by higher near-term prices due to a more significant geopolitical risk premium from the conflict. Despite the risk premium, we expect significant global oil inventories builds will ...

When will energy prices go down? Energy prices fell by 7% in July for millions of households. But energy prices are still high and forecast by some to rise again in October. We look at how to save on your energy bills.

We mainly use EDF Energy's Price Forecasting Service when looking at how the Price Cap is predicted to change over the next year, including in our Cheap Energy Club tool - which aims to give you an idea of how your ...

We expect U.S. average wholesale power prices to increase by 12% this summer compared with last summer. Although natural gas prices are down compared with our June forecast, they are still higher than prices last summer. ...

The EIA forecast benchmark Brent crude oil prices will fall from an average of \$81 per barrel (b) in 2024 to \$74/b in 2025 and \$66/b in 2026, as strong global growth in production of petroleum and other liquids and slower ...

We're offering a free trial of PCI Forecaster for load, solar, wind, or price forecasting. Test forecast performance, validate workflows, and reduce risk -- without long-term commitment.

The energy secretary, Ed Miliband said that a single national price would help ensure the system was "fair, affordable, secure and efficient". 1 July - The energy regulator has approved a £24bn upgrade to Britain's energy ...
