

Sarah Malm, Executive Director of GOGLA Sarah Malm explains how the off-grid solar sector drives clean energy access for millions in Africa. The global association for the off-grid solar sector supports more than 200 companies, ...

Austria is one of the advanced European countries in the energy and sustainability sector. This country has several battery manufacturers that not only excel in technology but also play a crucial role in the green energy transition. ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Phillips Medisize, a Molex company and a leader in the design, engineering and manufacturing of medtech, pharmaceutical drug delivery and in vitro diagnostic devices, announces the launch ...

Abstract: In order to mitigate global warming,achieve "emission peaking and carbon neutrality" and utilize new energy resources efficiently,the power system taking new energy as ...

Unlike conventional batteries that store electricity, TES captures surplus energy as heat--making it a scalable, cost-effective solution for balancing renewable energy supply and demand in...

Background Are you an adolescent girl in Ghana, passionate about girls' rights and eager to drive change in your community and across West and Central Africa? UNICEF Ghana is seeking a ...

KYOCERA AVX, a leading global manufacturer of advanced electronic components engineered to accelerate technological innovation and build a better future, has introduced the new 6780-000 ...

The National Energy Regulator of South Africa (NERSA) is a regulatory authority established as a juristic person in terms of Section 3 of the National Energy Regulator Act, 2004 (Act No. 40 of 2004). NERSA's mandate ...

High-performance storage with fast read/write capabilities, scalability, and data tiering is becoming essential. Enterprises are turning to flash storage, object storage, and software-defined ...

Trina Storage has released independently verified operational data from a 150MW utility-scale agrivoltaic + storage project, confirming strong real-world performance in both efficiency and ...

This spring, the MIT Energy Initiative (MITEI) awarded more than \$1.2 million in grants to support seven novel energy research projects as part of its Seed Fund program. Each project will ...

Located 41km east of Kashgar, the first phase (500 MW/ 2 GWh) of a mega-battery project of 1 GW/4 GWh has been commissioned by Huadian Xinjiang Kashgar in China. Comprising of ...

Isopentane in energy storage and conversion systems: Isopentane plays a role in energy storage and conversion systems, particularly in organic Rankine cycle (ORC) applications. It is used as a working fluid in ORC systems for waste ...

Africa's lithium battery market is propelled by key suppliers like Hubble Lithium, Blue Nova Energy, and Deltec Energy Solutions, with rack-mounted lithium batteries increasingly vital for ...

Strong partnerships between China and South Africa bring affordable, scalable, and safe energy storage solutions that create jobs, support local communities, and promote a fair energy ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with ...

Looking ahead, battery energy storage is expected to play an increasingly central role in South Africa's energy mix. According to the Climate Investment Funds (CIF), storage will be vital in ...

By examining South Africa's diurnal energy distribution and proposing a strategy for low-voltage (LV) storage, this study aims to provide policymakers, energy providers and researchers with ...

Growing Need for Long-Duration Energy Storage One of the main drivers for Iron-Chromium (ICB) flow batteries is the accelerating global shift toward long-duration energy storage (LDES) ...

We are honored to contribute to Egypt's efforts to advance energy infrastructure, enhance grid stability, and ensure a reliable energy supply." As the first utility-scale energy ...

Energy storage applications central africa
