

Energy Impact Partners (EIP) is a collaborative strategic investment firm that invests in companies optimizing energy consumption and improving sustainable energy generation. Through close collaboration with its strategic ...

Google enters long-duration energy storage (LDES) with a global commercial partnership and investment in Energy Dome. Energy Dome's CO2 Battery stores clean energy for 8-24 hours, ...

Energy storage technologies are being prioritised in order to improve system resilience and facilitate Italy's energy transition objectives, ranging from lithium-ion batteries to hybrid solar ...

Aed Energy has secured investment from Catalyst, the Masdar City-bp backed accelerator focused on scaling climate technologies across the Middle East and beyond. The investment ...

In 2025, global energy investment is expected to reach \$3.3 trillion -- the highest level ever recorded, according to the IEA World Energy Investment Report 2025. Clean energy will account for two-thirds of that total, led by investment in ...

Decoding the Investment What is the Cost of a Battery Energy Storage System? Der Einstieg in die Welt der Batteriespeichersysteme (BESS) beginnt oft mit einer entscheidenden Frage: ...

Sources say the new median point under consideration could grant Lebanon an additional 2,500 square kilometers of maritime territory, significantly expanding its share from the 2007 ...

TES startups leverage technologies such as phase change materials, sensible heat storage and thermal batteries to create energy storages. ETC specializes in thermal storage, energetic efficiency, industrial wastes ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Energy experts point out that for those who can install solar power, it is ten times cheaper than relying on private generators, as state-run electricity is barely available. Thirty percent of Lebanon's electricity supply now comes ...

Lebanon's Power Crisis: Why Solar Battery Storage Is Urgently Needed Lebanon is experiencing one of the most severe energy crises in the Middle East. Nationwide power cuts exceeding 20 ...
