

Energy storage technologies are being prioritised in order to improve system resilience and facilitate Italy's energy transition objectives, ranging from lithium-ion batteries to hybrid solar ...

The latest report from the European Energy Storage Association points out that the current capacity of battery energy storage systems in the EU is only slightly above 50GWh, but by ...

Italian energy storage firm Energy Dome said on Friday it had entered a commercial partnership with Google to supply carbon-free energy to the grids that power the operations of the U.S. tech giant.

Italy ranks among Europe's top battery storage markets, driven by its MACSE auctions, capacity market, and early merchant efforts. Competition is growing amid rising micro and macro ...

Investment in big batteries is booming as Australia's transition to renewable energy increases its pace. In the first quarter of 2025, investment hit \$2.4 billion, making it the second-strongest ...

The global transition to clean energy necessitates integrated solutions that ensure both environmental sustainability and energy security. This paper proposes a scenario-based modeling framework for urban hybrid energy systems ...

Experts said developing energy storage is an important step in China's transition from fossil fuels to a renewable energy mix, while mitigating the impact of new energy's randomness, volatility, intermittence on the grid and ...

Here are Spain's top 10 energy storage investors, who are shaping grid flexibility, energy security, and decarbonisation. These major investors are funding high-impact initiatives like lithium-ion ...

The Netherlands' aim to a carbon-neutral economy by 2050 is making it a major energy storage player in Europe. Storage solutions are needed to maintain grid stability and flexibility as ...

ETC specializes in thermal storage, energetic efficiency, industrial wastes recovery high valuation and advanced materials characterization. Making 24/7 renewables a reality through Thermal Energy Storage. Harvest Thermal ...

Energy Dome, the company behind the CO2 Battery, the innovative long-duration energy storage solution, announced the close of its second tranche of Series B funding, bringing the overall round to a total of EUR 55 million (\$...
