

Battery energy storage is critical for diversifying India's energy mix and ensuring clean power is available when demand is highest. IndiGrid has been a trusted partner to IFC in advancing ...

India is witnessing a dynamic shift in its renewable energy narrative, where standalone solar is gradually giving way to more advanced, solar-plus-storage models. The government's recent INR 5,400 crore (\$625 million) allocation to ...

While India is actively engaged in a massive grid transformation, continuous and accelerated efforts in transmission build-out, smart grid deployment, energy storage solutions, and policy ...

India's renewable energy sector experienced remarkable growth in the first half of 2025, adding 22 gigawatts of capacity, a 56% increase year-over-year. This surge propels India closer to its ambitious 2030 clean energy target, with non-fossil ...

**Bihar Unveils New Renewable Energy And Pumped Storage Policies, Signs Major MoUs Worth Thousands Of Crores** A key highlight of the event was the signing of several strategic MoUs ...

Investors should watch stocks tied to recent battery energy storage system orders, as they signal growing demand for clean energy solutions. Such developments indicate technological ...

A prominent power and climate policy analyst, Shankar Sharma, has raised significant concerns regarding India's current reliance on pumped storage plants (PSPs) for energy transition, ...

**Energy Storage Has a Big Role in India's Energy Transition Mission** By integrating just one hour of energy storage, the peak solar generation pressure can be reduced by 50 percent. This ...

Recently, a consortium led by POWERCHINA Northeast Electric Power Engineering Co., Ltd. signed an EPC turnkey contract for the 200MW AC mountainous photovoltaic project with ...

The International Conference and Expo on Energy Storage, E-Mobility & Charging Infra & Microgrids will be held at Hall 1B of the IICC in New Delhi from June 23rd to 27th 2025. India Energy Storage Week is a flagship ...

VERBUND has selected Fluence Energy GmbH, a subsidiary of Fluence Energy, Inc. to build large scale battery-based storage systems that will achieve a total output of over 92 MW and a ...

Envision Energy announced that it has executed two supply agreements to provide Lithium Iron Phosphate
