

Existing battery projects in California and Texas see upside, while hybrid storage bets in the Midcontinent Independent System Operator (MISO) territory and the Southeast face shrinking margins under the revised tax credit rules.

The dynamics of the electricity market in Europe in 2025 Primary electricity sources in Europe Europe's electricity market is characterized by a diverse array of energy sources. The main source of electricity across the ...

Agência Nacional de Energia Elétrica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation phases ...

The long-awaited Bulgarian foreign direct investment (FDI) screening regime is now fully operational. As previously reported, the Bulgarian Parliament last year adopted the final text of a bill amending the Investment Promotion Act (the ...

These included assessments of nuclear energy infrastructure, regulatory frameworks for nuclear and radiation safety, site evaluation, emergency preparedness and response, nuclear material ...

This comprehensive guide will help residential solar & energy storage installers/distributors avoid common solar battery installation mistakes, ensuring long-term, reliable energy storage ...

As previously reported, the Bulgarian Parliament last year adopted the final text of a bill amending the Investment Promotion Act (the "Act"), implementing the screening mechanism outlined in ...

The integration of isobutane in energy storage solutions faces several significant challenges that hinder its widespread adoption and optimal utilization. One of the primary obstacles is the ...

As the UK accelerates toward a low-carbon future, the need for flexible, reliable, and intelligent energy infrastructure has never been greater. At Dale Power Solutions, our Battery Energy ...

Its low boiling point, high vapor pressure, and excellent thermal stability make it an attractive option for various energy transfer processes. The primary objective of utilizing 2 ...

The Traction Energy Storage System (TESS) market is experiencing robust growth, driven by the increasing demand for electric and hybrid-electric vehicles (EVs and HEVs) across various ...

Mikita Losik, the younger brother of imprisoned Radio Free Europe/Radio Liberty (RFE/RL) journalist Ihar

Losik, has fled Belarus after being sentenced to three years for &quot;extremist ...

Amending Regulation (EU) 2017/1938 as regards the role of gas storage for securing gas supplies ahead of the winter season. THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION, Having ...

Power Conversion System (PCS) serves as the "engine" of the energy transition, offering real/reactive power regulation, grid-connected/off-grid switching, and energy storage integration.

Recently, the German Federal Court of Justice (BGH) issued a landmark ruling confirming that local grid operators have the right to charge grid connection fees (BKZ) for energy storage projects. This decision not only directly impacts the ...

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (H.R. 1 119th Congress) (OBBBA), which significantly changes the clean energy tax credit landscape established by the Biden administration pursuant to the ...

Ag&#234;ncia Nacional de Energia El&#233;trica (ANEEL), Brazil's electricity regulator, will publish initial energy storage regulations in the second half of 2025, with two additional consultation ...

The gas storage regulation was adopted in June 2022, at the heart of the energy crisis, to ensure sufficient storage levels crucial to supply EU homes and businesses throughout winter and ...

Struggling to understand how Energy Storage Systems (ESS) help maintain grid stability? This in-depth, easy-to-follow blog explores how ESS regulate frequency and manage peak loads, ...

The precise regulation of distributed energy storage resource pools can enhance the capacity to stabilize the peak-valley load difference of the power grid, mitigate load fluctuations, ensure ...

On July 17, Gotion High-Tech, a Chinese battery manufacturer, launched production of its 5MWh Gotion GRID energy storage system at its G&#246;ttingen, Germany facility, as announced on its ...

India-UK Vision 2035: Nations to Deepen Collaboration on Energy Storage, Grid Transformation Under the India-UK Vision 2035, the two countries aim to drive ambitious energy security and ...
