

Tajikistan is committed to the development of a regional energy market among member states of the Economic Cooperation Organization (ECO), President Emomali Rahmon stated during the ...

The energy storage flywheel market, currently valued at \$236 million in 2025, is projected to experience robust growth, driven by the increasing demand for reliable and efficient energy ...

The country expects to achieve fully market-oriented development of the power storage industry and independent research and development of core technologies and equipment by 2030. Answering the call, local governments ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Global Gateway has reached a new milestone with the inauguration of the Sebzor hydropower plant that will improve the access to sustainable, reliable and affordable electricity for more ...

Understanding these interactions is crucial for research in aging, oxidative stress, and various pathological conditions. Carbonyl chemistry in energy applications: This category explores the ...

As part of the European Union's Global Gateway strategy, the Sebzor hydropower plant has been inaugurated in Tajikistan's Gorno-Badakhshan Autonomous Oblast (GBAO). The facility is ...

The 17th summit of the Economic Cooperation Organization (ECO) is taking place in the city of Khankendi. One of the key topics of the meeting is energy security and the development of ...

On July 4, President Trump signed the "One Big Beautiful Bill." The bill makes steep cuts to solar energy and places new restrictions on energy tax credits that will slow the deployment of ...

Country: USA | Funding: \$360M Powin Energy is a market leader in the manufacturing and development of energy storage technology used in stationary. Powin buys battery cells and hooks them up with proprietary ...

The sulfide-based solid electrolyte market is experiencing significant growth, driven by the increasing demand for safer and higher-performing batteries in electric vehicles (EVs) and ...

Two projects led by the University of Oxford have received a major funding boost from the Faraday

Institution, the UK's flagship institute for electrochemical energy storage research. The funding is part of a £19 million ...

The integration of smart grid technologies and energy storage solutions presents significant opportunities for growth within the charge controller system market. The development of sophisticated monitoring and control systems further ...

The Ministry of Energy and Water Resources of the Republic of Tajikistan summed up the results of the country's energy sector development for the first half of 2025. As noted at the press ...

At the center of the talks was the modernization of Tajikistan's aging energy infrastructure. Enterprises from Sverdlovsk region are set to supply state-of-the-art equipment for energy and ...

The sodium-ion rechargeable battery market is poised for significant growth, driven by increasing demand for sustainable and cost-effective energy storage solutions. While precise market sizing data is absent, considering the ...

Energy storage research and development tajikistan
