

The construction of storage infrastructure in Namibia reinforces the refinery's ambition to be a continental powerhouse in refined fuel production and distribution, creating new trade routes ...

The Dangote Petroleum Refinery, owned by Africa's richest man Aliko Dangote, is preparing to construct a massive fuel storage facility in Namibia, marking a strategic expansion into ...

The Dangote Petroleum Refinery is preparing to construct fuel storage tanks in Namibia as part of efforts to expand its distribution network into Southern Africa. The facility, to be located at ...

Africa's largest single-train fuel processing plant, Dangote Refinery, is planning to construct a 1.6 million barrels storage facility in Namibia to supply refined fuel to the Southern African market, ...

TotalEnergies EP Namibia B.V. (TEEPNA) and its joint venture partners--Impact Oil & Gas, NAMCOR, and QatarEnergy--plan to drill up to 40 subsea wells on the Venus Field offshore Namibia. Hydrocarbons will be ...

Preview a selection of hydrogen demonstration project nominees for the 10th African Power & Energy Elites: Projects and People magazine (fondly known as The Elites). Africa's journey ...

Dan Caulkins: Innovation and energy -- the twin pillars of America's future The Engine's Primed: Energy efficiency awaits MSME leadership Democracy Digest: Tusk Reshuffles Polish ...

Battery storage has become a critical component in modern solar PV systems, especially for enhancing energy reliability, self-consumption, and grid independence. Whether for residential, ...

The challenge with Renewable Energy sources arises due to their varying nature with time, climate, season or geographic location. Energy Storage Systems (ESS) can be used for storing available energy from Renewable ...

Nigeria's Dangote Petroleum Refinery is taking a bold leap toward reshaping fuel distribution in southern Africa, with plans now confirmed to construct massive fuel storage tanks at Namibia's ...

The Beijing Capital International Airport (&quot;Capital Airport&quot; for short) provides both domestic and international departing passengers with a temporary storage service for security-restricted

Recognizing that energy storage safety requires systemic collaboration, Desay Battery brought together industry experts at the event to explore the future of storage technologies, value-chain integration, and

innovation-driven safety.

The visit focused on XIHO Energy's core product line: the main product customized battery pack covers multi-specification integrated systems such as home energy storage and industrial and ...

Energy storage technology provides you with lithium battery technology, silicon-carbon negative electrode, solid-state battery technology and application scenarios, such as electric vehicles, two-wheel electric vehicles, ...

Unlocking a ?Cleaner, More Reliable Grid: The Promise of Long-Duration Energy Storage (LDES) The ?future of energy is clean, reliable, and always-on. But achieving this requires more than ...

And we're accelerating a wide range of technologies, from enhanced geothermal to advanced nuclear to even fusion technologies, that can enable a future where on-demand electricity ...

WALVIS BAY, July 10, 2025 - The Dangote Refinery has launched plans to construct large-scale fuel storage tanks in Namibia's Walvis Bay port, Reuters reported on Wednesday. The project ...

Nigeria's Dangote Petroleum Refinery is set to construct fuel storage tanks in Namibia to hold at least 1.6 million barrels of gasoline and diesel. According to two sources familiar with the ...

This placed-in-service deadline would not apply to energy storage technology. Moreover, the OBB-A eliminates credit for leased residential solar water heating and wind energy property (except leased solar electric generating property). ...

At a time when several African countries are scaling back subsidies to contain deficits, Namibia's choice to expand support for electricity access stands out. The country is effectively signalling ...

Energy: The Group aims to deploy its expertise alongside global players in the Oil & Gas, renewable energies (solar, wind), nuclear, and hydrogen sectors, as well as in energy storage ...

SINGAPORE - A lackWho will do my job while I'm learning? S"pore workers want more tech training - Electricity Powered by: As Arizona becomes data center hub, utilities recognize ...
