

Enertime orc French Southern Territories

Enertime est une société industrielle française spécialisée dans la conception et la fabrication de machines thermodynamiques de puissance (compresseurs et turbines) pour la valorisation d'énergie renouvelable et de récupération.

Enertime conçoit, développe et met en oeuvre des modules Cycle Organique de Rankine (ORC) pour la production d'électricité renouvelable avec ou sans CO2 à partir de chaleur. Enertime ...

The Enertime Solution harnesses unused industrial heat, transforming it into electricity through an innovative process known as the Organic Rankine Cycle (ORC). This technology operates similarly to a traditional steam turbine, but it uses organic fluids with a lower boiling point than water, making it more efficient at lower temperatures.

CREDIT AGRIGOLE - UNIFERGIE, an expert in the financing of energy and territories and a committed player in sustainable development for over 30 years, has financed the first project to install an organic Rankine cycle ("ORC") system supported by ENERGIE CIRCULAIRE, ENERTIME's energy services subsidiary (ESCO).

ENERTIME (FR0011915339 - ALENE), a French "CleanTech" company serving industrial energy efficiency and geothermal energy generation, announces that it has submitted a new application for the installation of an ORC system on an industrial site in France, as part of the "Decarbonation of Industry" call for projects by French ADEME. The call launched on March ...

Enertime est le spécialiste mondial de la valorisation d'énergie fatale dans l'industrie. Nous mettons au point pour cela des machines thermodynamiques de forte puissance comme les cycles organiques de Rankine (ORC), pompes à chaleur industrielles (PAC) et turbines de détente de gaz naturel (turboexpansors).

Enertime has 3 employees at their 1 location and EUR3.76 m in annual revenue in FY 2023. ... (ORC) to convert waste heat or heat produced with renewable resources into CO2-free electricity. Enertime also develops high-temperature heat pumps and ad hoc turbomachines. ... Enertime is headquartered in Courbevoie, near Paris. The company is ...

Enertime is a French industrial SME with the ambition to fight against global warming by developing innovative solutions for CO2-free energy production that it exports worldwide. ... ORC technology is based on the thermodynamic cycle called the Rankine cycle, in memory of the 19th century Scottish scientist who theorized it. Using standard ...

ENERTIME TURBINES A VAPEUR 3. Sur la chaleur fatale, Enertime cible le « blue ocean » 2. Le marché de la chaleur fatale est peu concurrencé PUISSANCE MOYENNE (MW) INSTALLÉE PAR FABRICANT D"ORC1 r Puissance 1 MW 5 MW 350°C Ces fabricants d"ORC de puissance < 500 kW ne sont pas concurrents d"Enertime 11 Autres concurrents Turbines à ...

Terres australes et antarctiques françaises; French Southern and Antarctic Territory; TAAF) 7781 (432000) ,

Enertime fait évoluer sa technologie de turbine vers des solutions de type hermétique c'est-à-dire avec au maximum une seule garniture mécanique C'est un des sujets du projet collaboratif de 15 MEURsur un appel européen sur la technologie ORC clos en Octobre 2021 Enertime pilote du consortium de 5 laboratoires de recherche européens

Enertime est une PME industrielle française cotée en Bourse depuis 2016. Nous accordons une grande valeur à la lutte contre le changement climatique et la décarbonisation de l'industrie. Avec notre équipe diverse et qualifiée, comprenant des ingénieurs et des techniciens du monde entier nous oeuvrons aussi pour la réindustrialisation.

Energie Circulaire is an energy services company specialising in industrial energy efficiency (IEE). The purpose of Energie Circulaire is to implement, finance and operate systems for recovering waste energy from industrial processes using the ORC (organic Rankine cycle) and heat pump technologies proposed by Enertime.

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Adélie Land (Terre Adélie): This is the French claim on the continent of Antarctica.; Crozet Islands (Îles Crozet): A group of islands in the southern Indian Ocean, located south of Madagascar.; Kerguelen Islands (Archipel des Kerguelen): A volcanic island group in the ...

ENERTIME is the only player offering ORC machines and a portfolio of technology in the field of thermodynamics for the energy transition. For ORC technology, it is one of the four main global players and the only French one fully ... In EUR - French standards 30/06/2023 30/06/2022 Revenue 3,208,751 1,084,791 Other operating income 400,521 397 ...

Analyst : Jean Pierre Miguet Page 4 sur 23 jp.miguet@01equity Warnings in back page to be read attentively before study of this publication Enertime's ORC systems and turbines contribute to the security of the industry's energy supply for 10 to 15 years. The surging of European energy costs opens the door to strong demand for
