

Enlighten battery Maldives

How can the Maldives achieve "carbon neutrality" by 2030?

While ASPIRE project addresses the need to increase PV generation in Maldives through private sector investment, Maldives envisions an ambitious goal of "carbon neutrality by 2030" along with an immediate target for 2023 to increase the share of renewable energy by 20% compared to 2018 levels.

Is Enlighten NASICON ready for manufacturing scale-up?

NaSICON is commercial and ready for manufacturing scale-up. Enlighten's long duration energy storage (LDES) decouples power and energy. It allows storage capacity to match market requirements. NaSICON provides higher energy density than other flow battery technologies and beats Li-Ion on cost at 7+hours.

What is NASICON & enlighten?

NaSICON enables low temperature, high conductivity and selectivity of sodium ions which are in a class above traditional sodium separator materials. NaSICON is commercial and ready for manufacturing scale-up. Enlighten's long duration energy storage (LDES) decouples power and energy. It allows storage capacity to match market requirements.

I see a new function on the battery charge from grid screen. Mine is set for charge when under 30%..... the charge to 100% during this schedule is not checked. Every night at midnight the batteries start charging and continue until they get to 100%. This function does not appear to be working correctly. By charging at night there is little to charge in the day.
