

Faradion limited The Netherlands

Who is Faradion Limited?

If so, then please Faradion Limited is a company registered in England & Wales. Registration No. 07338748. Welcome to Faradion, the world leader in non-aqueous sodium-ion cell technology that provides cheaper, cleaner energy.

Where is Faradion based?

With its headquarters at the Innovation Centre in Sheffield, Faradion has gathered a team of experts in the battery industry, with an impressive array of skills and experience. Currently, lithium extraction is exclusively from hard-rock ores and continental brines, with continental brine resources being more abundant than hard-rock ores.

What is a Faradion battery?

Faradion is pioneering the next generation of advanced, low-cost battery materials. These novel materials employ sodium-ion (Na-ion) technology which, when incorporated into batteries, will be virtually indistinguishable from the leading products currently on the market in terms of performance; they are however available at a fraction of the cost.

When was Faradion acquired?

Faradion was acquired on 05-Jan-2022. Who acquired Faradion? Faradion was acquired by Reliance Industries. Discover how our experts ensure you're getting the most accurate financial data in the industry. Our data operations team has logged over 3.5 million hours researching, organizing, and integrating the information you need most.

Who are the founders of Faradion?

Jeremy Barker Ph.D, Christopher Wright Ph.D, and Ashwin Kumaraswamy are the founders of Faradion. Who is the CEO of Faradion? James Quinn is the CEO of Faradion. Where is Faradion headquartered? Faradion is headquartered in Sheffield, United Kingdom. What industry is Faradion in? Faradion's primary industry is Electrical Equipment.

What is the current valuation of Faradion?

The current valuation of Faradion is 00000. What is Faradion's current revenue? The current revenue for Faradion is 00000. How much funding has Faradion raised over time? Faradion has raised \$9.7M. Who are Faradion's investors?

Faradion limited The Netherlands

Faradion has been a leading proponent of sodium ion battery technology, with multiple IP's to its name in the space. For Reliance, the Faradion investment follows a slightly larger investment it has already made in Ambri, a liquid metal storage battery firm where it has invested \$144 million back in August the case of Ambri too, Reliance has retained the rights to sell the battery in ...

- o Faradion's Na-ion batteries solve the problem of air transport.
- o Faradion Na-ion cells use safer and lower cost active materials than Li-ion cells and low volatility electrolyte (i.e. high PC fraction).
- o Faradion Na-ion batteries can be discharged to 0 V and stored and transported in this discharged state (unlike Li-ion batteries).

The project aims are to develop and demonstrate low cost 12V batteries for electrified vehicles. These batteries are used for lighting, security and control of the traction battery management system and other critical features. Generally, in electrified vehicles, these batteries use lead acid technology on account of their
