

# Floating solar companies Turks and Caicos Islands

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

What solar products does Fortis TCI offer?

We specialize in the following solar products: solar hot water, solar pool heating, solar pool pumps and solar photovoltaic. Fortis TCI is the main power utility in the Turks and Caicos Islands. It is a privately owned company and services all of the inhabited islands within the Turks and Caicos Island chain.

Who makes the best solar canopy?

Brooklyn Solar Canopy is one of the premier solar canopy manufacturers. Uniquely designed solar canopies for flat roof, solar carports, shade structures, and open areas. Q-Yachts is leading the innovation in the electric boating market. The Q-30 is the premiere product, featuring cruising speeds of up to 15kn and a range of up to 80 nM.

We have designed a number of prepackaged solar systems which can remove any number of circuits within your home or business from the grid, we offer a supply only or a supply and installation service for these systems:
