Sunstream's ST500 Mobile Solar Trough is a livestock watering system that utilizes the sun's power to run the pump. This water trough can be used in any remote area on your ranch or farm. The ST500 is a ready-to-pump solution for your dugout, creek or well. Everything is wired up and ready to go with this system.

Solar PV is the fastest growing renewable energy source in the world and is forecast to be the dominant source of renewable energy in the world by 2050. Here in Ireland, this may not necessarily be the case as our climate favors wind energy. Nevertheless, solar energy will make up a sizeable share.

Our Omni-Directional solar technology is the first of its kind, it does not need to be pointed at the sun to harvest maximum energy. Just place it outside and forget about it. Originally designed for military applications on moving vehicles. Eliminates the confusion typically required in positioning your panel for optimal sun capture, it works no matter what direction it is oriented.
